Guests Welcome

1812 political cartoon on gerrymandering named after Massachusetts Governor Elbridge Gerry who formed a district said to resemble a salamander.

This 90-minute documentary from 2010 "*explores the history and the ethical, moral and racial problems raised by redistricting ... the drawing of boundaries of electoral districts.*" Written and directed by Jeff Reichert the film features such personalities as Arnold Schwarzenegger, Ed Rollins, Bob Graham and Howard Dean. One of the successful campaigns *Gerrymandering* focuses on took redistricting away from the state legislature in California.

Julia Vaughn, Policy Director for Common Cause Indiana, joined the organization in 1995 and is responsible for policy development, lobbying, grassroots organizing and coalition building. She will be available after the film, along with members of the LWVGL's recently-formed Redistricting Committee, for Q&A about the new efforts in the Indiana State Legislature to explore redistricting.

* The church is located at 333 Meridian Street in West Lafayette. Follow Meridian around the building to the back entrance to reach the forum rooms (101-103). Parking is available in the back (Smiley Street) and along Meridian on both sides of the building.
